

Procédures de calcul réfléchi

Addition

Les calculs par cœur

$7 + 3 = \dots\dots \quad 5 + 7 = \dots\dots \quad 6 + 4 = \dots\dots$

Les calculs faciles

$24 + 1 = \dots\dots \quad 60 + 7 = \dots\dots$

$35 + 10 = \dots\dots \quad 47 + 30 = \dots\dots$

Les calculs astucieux

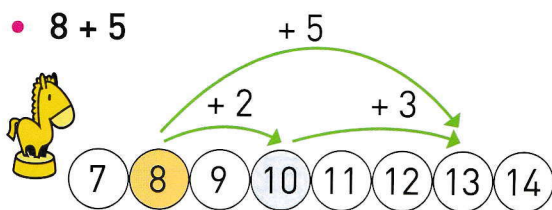

Pour calculer $6 + 7$,

on calcule $6 + 6 = \dots\dots$

puis $6 + 7 = \dots\dots + 1 = \dots\dots$

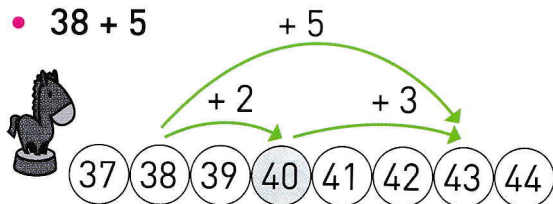

Les calculs par sauts

• $8 + 5$

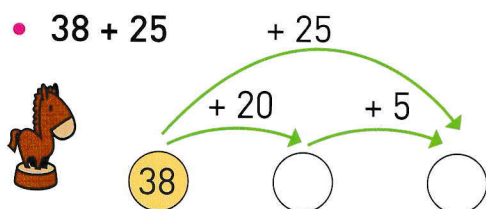

$8 + 5 = \dots\dots$

• $38 + 5$

$38 + 5 = \dots\dots$

• $38 + 25$

$38 + 25 = \dots\dots$

Soustraction

Les calculs par cœur

$9 - 2 = \dots\dots \quad 8 - 6 = \dots\dots \quad 7 - 3 = \dots\dots$

Les calculs faciles

$46 - 1 = \dots\dots \quad 28 - 8 = \dots\dots$

$35 - 10 = \dots\dots \quad 67 - 30 = \dots\dots$

Les calculs astucieux

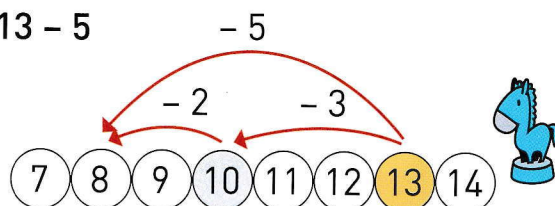

Pour calculer $30 - 26$,

on calcule $26 + \dots\dots = 30$

puis $30 - 26 = \dots\dots$

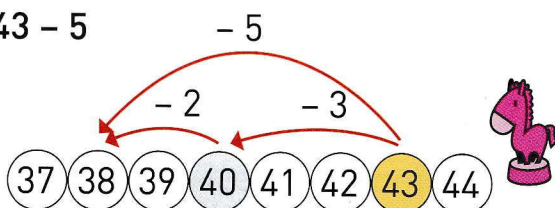

Les calculs par sauts

• $13 - 5$

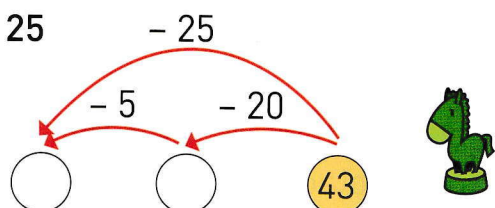

$13 - 5 = \dots\dots$

• $43 - 5$

$43 - 5 = \dots\dots$

• $43 - 25$

$43 - 25 = \dots\dots$
