

Correction de l'exercice de mardi 26

Multiplier par 20

Calcule les multiplications sans les poser:

Tu n'es pas obligé(e) d'écrire tous ces calculs mais tu dois les faire de tête pour arriver au résultat.

$$3 \times 20 = (3 \times 2) \times 10 = 6 \times 10 = \mathbf{60}$$

$$5 \times 20 = (5 \times 2) \times 10 = 10 \times 10 = \mathbf{100}$$

$$6 \times 20 = (6 \times 2) \times 10 = 12 \times 10 = \mathbf{120}$$

$$14 \times 20 = (14 \times 2) \times 10 = 28 \times 10 = \mathbf{280}$$

$$15 \times 20 = (15 \times 2) \times 10 = 30 \times 10 = \mathbf{300}$$

$$12 \times 20 = (12 \times 2) \times 10 = 24 \times 10 = \mathbf{240}$$

$$21 \times 20 = (21 \times 2) \times 10 = 42 \times 10 = \mathbf{420}$$

$$32 \times 20 = (32 \times 2) \times 10 = 64 \times 10 = \mathbf{640}$$

$$7 \times 20 = (7 \times 2) \times 10 = 14 \times 10 = \mathbf{140}$$

$$8 \times 20 = (8 \times 2) \times 10 = 16 \times 10 = \mathbf{160}$$

$$30 \times 20 = (30 \times 2) \times 10 = 60 \times 10 = \mathbf{600}$$

$$25 \times 20 = (25 \times 2) \times 10 = 50 \times 10 = \mathbf{500}$$
