

Pose puis calcule les additions (feuille 1)

$59 + 18 =$

$89 + 7 =$

The image shows two vertical addition problems on blue grid paper. Each problem is set up with a vertical line separating the tens and units columns. Above the line, the letter 'd' is written for the tens column, and below the line, the letter 'u' is written for the units column. A downward arrow points to the 'u' column. The first problem is for  $59 + 18$ . The digits are placed as follows: 5 in the tens column and 9 in the units column for the first number; 1 in the tens column and 8 in the units column for the second number. A plus sign is written to the left of the numbers. A horizontal line is drawn below the units column. The second problem is for  $89 + 7$ . The digits are placed as follows: 8 in the tens column and 9 in the units column for the first number; 0 in the tens column and 7 in the units column for the second number. A plus sign is written to the left of the numbers. A horizontal line is drawn below the units column.

$37 + 28 = \dots\dots$

$41 + 23 + 7 = \dots\dots$

The image shows two vertical addition problems on blue grid paper. Each problem is set up with a vertical line separating the tens and units columns. Above the line, the letter 'd' is written for the tens column, and below the line, the letter 'u' is written for the units column. A downward arrow points to the 'u' column. The first problem is for  $37 + 28$ . The digits are placed as follows: 3 in the tens column and 7 in the units column for the first number; 2 in the tens column and 8 in the units column for the second number. A plus sign is written to the left of the numbers. A horizontal line is drawn below the units column. The second problem is for  $41 + 23 + 7$ . The digits are placed as follows: 4 in the tens column and 1 in the units column for the first number; 2 in the tens column and 3 in the units column for the second number; 0 in the tens column and 7 in the units column for the third number. A plus sign is written to the left of the numbers. A horizontal line is drawn below the units column.
